Join us for 1.5 days of hands-on Neuro-ophthalmology as part of CUMC's Basic & Clinical Science Course in Ophthalmology! This program is perfect for ophthalmology residents, optometrists, primary care physicians, neurologists, and anyone curious to sharpen their skills. Guided by world-renowned experts, we'll dive into visual fields, pupils, nystagmus, papilledema, and more—always through interactive, real cases. You'll leave with clear, practical strategies for evaluating and managing patients, and with neuro-ophthalmology feeling more approachable, understandable, and fun!
